

INTRODUCING

Nialabs

AI BASED

FACE & FINGER BIOMETRICS

BIOMETRIC DEVICE EMPOWERED BY AI AND CLOUD SOFTWARE

Dynamic Face Recognition Terminal

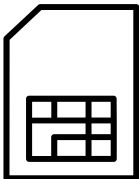

MODEL : N-AI08

- 0.5~2.5 meters Recognition Distance
- Real face recognition for accurate and fast identification.
- support Multi Person (At Most 5 Users) Face
- 4AMask Detection for Safety and ensuring a secure environment.
- Real-time monitoring of access control and attendance.
- Functional Camera For Using At Night
- Multiple authentication modes: face recognition, QR code and RFID card.
- Durable construction for long-lasting performance.
- Double Camera For Accurate Verification
- 4.3 inch Display.
- CPU- 1.2 dual Core ARM

SUPPORT

LAN, WIFI, Cloud Support, etc.

**WITH 4G
SIM OPTION**

Other Details

32500/-

Included TAX and API

**1 YEAR
WARRANTY**

 **PWO: 5000
User: 5000**

 **Face: 5000
Card: 5000**

 **Logs: 500000**

*Yearly API Renewal: Rs. 2500 (After One Year)

About Nia Labs

At Nia Labs, we lead in cloud-based device solutions, transforming device connectivity and performance. Our advanced cloud platform empowers businesses of all sizes, enabling them to maximize the potential of their devices effortlessly. Seamlessly integrating cutting-edge technology, including Biometric API, Biometric Online SDK, and Attendance API, we're your gateway to a more connected, efficient, and secure future.

BIOMETRIC DEVICE EMPOWERED BY AI AND CLOUD SOFTWARE

Dynamic Face Recognition Terminal

MODEL : N-AI06

- 0.5~2.5 meters Recognition Distance
- Real face recognition for accurate and fast identification.
- support Multi Person (At Most 5 Users) Face
- 4AMask Detection for Safety and ensuring a secure environment.
- Real-time monitoring of access control and attendance.
- Functional Camera For Using At Night
- Multiple authentication modes: face recognition, QR code and RFID card.
- Durable construction for long-lasting performance.
- Double Camera For Accurate Verification
- 4.3 inch Display.
- CPU- 1.2 dual Core ARM

SUPPORT

LAN, WIFI, Cloud Support, etc.

Other Details

26500/-

Included TAX and API

1 YEAR WARRANTY

BIOMETRIC DEVICE EMPOWERED BY AI AND CLOUD SOFTWARE

Ai Dynamic Face Recognition Time Attendance And Access Control Terminal

MODEL : AI05

- The AI05 MODEL features a 4.3-inch touch screen for easy interaction.
- It operates on LINUX 3.10, providing a stable and efficient operating system.
- The device is equipped with a 2MP color camera and a 2MP infrared camera.
- It incorporates dynamic dual-camera technology for live detection, which helps prevent deception from black-and-white and color photos and videos.
- The face recognition accuracy of the AI05 MODEL is an impressive 99.70%.
- It can recognize faces in just 0.2 seconds.
- The recognition distance ranges from 0.5 to 2.5 meters, with a reduced range of 0.5 to 1.5 meters when live face recognition is enabled.
- An optional built-in battery of 7.4V and 2000mA is available for flexible power options.
- The device supports network communication via TCP/IP, USB, and WiFi.
- It is designed to operate efficiently within a temperature range of 0-45°C.

BIOMETRIC DEVICE EMPOWERED BY AI AND CLOUD SOFTWARE

Dynamic Fingerprint and RFID Recognition Terminal

MODEL : N20

- ✔ User-friendly interface for simple operation and configuration.
- ✔ Versatile mounting options for flexible installation.
- ✔ Durable construction for long-lasting performance.
- ✔ Suitable for various environments such as offices, schools, and public spaces.
- ✔ Special algorithm with faster speed and high steady quality.
- ✔ High USB interface with 10 times speed than normal usb.
- ✔ With international 32 bit DSP CPU
- ✔ High resolution LCD shows the employee's name and finger image.
- ✔ 3000/5000 fingerprints suit different enterprises and companies.
- ✔ High speed tcp/ip communication makes data transfer steady.
- ✔ Free drivers scan usb for easy use.
- ✔ USB pen driver download or upload the reports in Excel or TXT file
